

Parental Circular
Summer Vacations 2021

Dear Parents

Greetings of the day!

*“There is never a night nor a problem that could defeat sunrise or hope.
Let your hopes, not your hurts, shape your future.”*

Optimism inspires us to do the impossible and helps us move on during difficult times. A positive statement propels hope towards a better future - it builds up faith and promotes change.

During the ongoing Covid-19 crisis, as parents and teachers, we need to be with our children to remind them that courage and hope can take on a course of its own. We need to reiterate to them that it is just a matter of time before we emerge victorious in this toughest battle of all times. Everyone may be juggling with extreme stress and anxiety, but we have to remember that clouds will eventually give way to a clear sky and sunshine will brighten our world once again.

The Summer Break is till [09 June 2021](#). Summer Vacation has always been the much awaited time of the year for children of all age groups - an opportunity to cultivate their hobbies and focus to deft their creativity. Summer Vacation homework has been designed in a manner that is both interesting and relevant to life. Students are expected to complete these Holiday Homework assignments independently, revisit the concepts already taught in the class and read a lot of books. In addition to this, it is advisable to practice yoga and meditation and not indulge in unnecessary screen time. For Classes LKG to Class 2, Homework Booklets have been distributed already. Homework Assignments for Classes 3 to Class 12 will be uploaded on the Online Learning Platform on Saturday, 8 May 2021.

Stay safe and plan out your activities judiciously to complete the holiday homework. In addition, check the School Website and Class Notice Board regularly for updates.

Our human compassion binds one to the other - Be a support to your family and friends. Be homebound and maintain positivity at all times.

Regards

Principal
