Sector 13, Rohini, Delhi 110085

Dear Parents

“If Winter comes, can Spring be far behind?”

Warm wishes to you all!

During the journey of life, hope, patience and positivity play a crucial role and we incur diverse experiences which each one of us pass on to our younger generation who see the rising sun as hope for the next morning. We must, with patience and fortitude hope that the youth of the nation will take the lead as spring follows winter and the faith that joy will follow the hard times of the present pandemic.

And who better can be the harbingers of this movement than our young and enthusiastic students and teachers, who have shown time and again with persistence how much they want to keep learning and winning over tough circumstances with their sheer dedication.

Recognizing the strength of young children to act as leaders and to be the torch bearers of humanity to make a huge difference in the society, the Central Board of Secondary Education has invited youngsters - students and individuals - aged 10 to 30 years to be warriors in the present times to combat COVID -19.

The details of the same can be accessed in the link-

http://cbseacademic.nic.in/web_material/Circulars/2021/33_Circular_2021.pdf

By God's grace, the devastating second wave of COVID-19, is showing clear signs of ebbing down. Now is the crucial time when it needs to be reiterated with utmost importance that we should not let our guards off and still carry on following the Covid protocols and hygiene measures including hand washing, respiratory etiquette (i.e. coughing and sneezing into the elbow), wearing a mask properly along with ensuring proper physical distancing measures, for it is the resolve of the people in totality that will determine how successfully we are able to keep away from this kind of an unfortunate situation from reoccurring in future.

During the prevailing lockdown, the school office staff has been communicating with parents on different issues through mail/ telephonically, however official paperwork like issue of fee certificates, transfer Certificates etc. and other unresolved fee related issues would be sorted out once the lockdown ends. We appreciate the patience shown by parents in this regard.

The Summer Vacation would surely have given the much-needed respite to students and parents from their hectic study schedule and their increased time on the Computer Systems. The students must now be all geared up to return to Online classes with full vigour, though children have the backup of a secure and happy family at home, it goes without saying that they need to continue with their education through the **Online Classes which will resume from Thursday, 10 June, 2021**, after the Summer Break. The time table of the classes can be accessed online a day or two before the classes begin.

Praying for the wellbeing and safety of all our students and their parents and loved ones, we eagerly await to welcome back our students to the Online Classes!

Regards

Principal
