## **Advisory for Safety against Fake Calls**

Dear Parents

The past year has been wrought with ups and downs; with all of us joining together to ensure that the youth of today, our children, continue with their education even in the face of all adversities. We have together learnt to take measures to safeguard ourselves and our dear ones. It has always been our endeavour to safeguard and protect our students; be it in school or now online.

We have come to know that some private agencies are calling up parents fraudulently, on behalf of our school by making fake calls regarding various issues vis-à-vis higher studies / Olympiads/ competitions asking you to share certain information of your ward.

For us, at Sachdeva Public School, Rohini, safety and security of our students is of paramount importance and we never authorize or share any information with any private agency regarding our students.

Therefore, we advise you not to entertain such calls from any private agency or individual on any matter whatsoever. Do keep a track of your wards' online activity, ensure that [s]he does not share personal information with anyone and uses school Gmail Id only for accessing online classes as per school time table.

In this regard it is recommended that you go through NCERT and UNESCO guidelines on "SAFE ONLINE LEARNING IN TIMES OF COVID-19" for sensitization of students and parents which have been attached with circular 'W6 - NCERT and UNESCO guidelines on Safe Online Learning' on Notice Board on School Website.

We hope that all preventive measures are being followed by your family for your safety during these times.

Regards

Principal
