

Sachdeva Public School

Sector 13, Rohini, Delhi 110085

Prevention and control of vector borne diseases (Dengue, Chikungunya and Malaria)

Dear Parents

Greetings of the Day!

We at school are committed towards safety of our students and are always working towards keeping our school clean. With the onset of monsoons and in light of DOE, Government of NCT Delhi Circular No.

[DE.23\(386\)Sch.Br./SHP/2023-24/166-172 dated 30/6/2023](#) and [DE.23\(386\) Sch.Br./SHP/2023-24/181-187](#), please note the following-

1. Students are permitted to wear winter uniform to ensure that their limbs are covered.
2. Students can apply mosquito repellent on the exposed parts of the body (if possible).
3. Keep yourself and your surroundings clean so that exposure to mosquitoes or breeding of the mosquitoes can be avoided.

We would request you to take measures to prevent the breeding of mosquitoes in and around your homes by avoiding water logging in coolers, flowerpots, AC trays etc., apart from using mosquito repellent coils and sprays.

Note: The school is making its own efforts by getting the school disinfected through fumigation on regular basis.

Regards

Principal
