Update - Students Safety

Dear Parents

Greetings of the Day!

In continuation of Circular Number B14, "Guidelines for Ensuring Student Safety and Security," dated 13-07-2024, we wish to emphasize once again that the safety of our students remain our utmost priority.

It has come to our attention that there have been incidents of suspicious individuals observed in the vicinity of the school, attempting to approach students during / after dispersal. Additionally, on separate occasions, two to three students have reported strangers approaching them while they were waiting for **Private Pick-up-Van/ Parents/ Family members**, asking for personal information such as addresses, saying that they will drop them home and offering unsolicited items like sanitizer etc.

A formal complaint has been filed with the local authorities regarding these recent incidents and we are working closely with them to monitor the situation and ensure safety of all students. Our staff is also on high alert and will continue to be vigilant. However, we once again strongly emphasise / advise you to take appropriate steps to collect /pick up /guide your children, not to talk to strangers for their safety and follow guidelines detailed in above mentioned circular. Parents of students going by self should instruct their children to move with a buddy and avoid moving alone. Parents using private van drivers must ensure that the driver does not leave the children alone in the vehicle to drop others and immediately report any untoward incident.

Your unwavering support in all our efforts for the well-being of our children is deeply appreciated and we are confident that together, our school will remain a safe place for all students.

Warm regards

Principal
